Subject: Re: Fw: Access to properties at VB/I-70 Site

Richard - Not to launch us into a lengthy negotiation for access but do you think there is anyway we can get the property owners to agree to storing the IDW - mostly purge water from the wells on their property while we wait for sampling results. I would estimate it to be ~ 4 weeks until we get results back from the lab and have them validated. We can make other arrangements but that will entail more effort and \$\$\$\$. When I spoke with the contractor about this issue - he indicated that he thought there was a secure location on the property to store the IDW barrels. Thanks
